A meeting of the Board of trade was held at the Exchange Hotel parior last Friday evening. C. W. Neal presided and Geo E. Elwell was elected secretary pro tem. The object of the meeting was stated by Col. Jameson to be the consideration of the proposed Belt Railroad. A charter has been obtained, a survey made, the permission of the town council to go through Seventh street has been given, and all that remains to be done is to secure the co-operation of the business men, and others in terested in progress, to insure its success. The road is to start at at a point near the Desk Factory, run up Seventh, through Harman & Hassert's property, out to Neal's furnace, then curves to the canal and back to Market street to the starting point. The intention is to open additional 'sites for lo cating factories. The capital stock is \$10,-

The attendance at the meeting was large and the proposition was cordially indersed by all present.

A petition was circulated and signed by a large number of persons, asking the town council to open a street through the Hoys farm, running from Espy road to Fifth street, beginning near the last house of Neal & Sons on the Espy road. Such a road would be of great public benefit, as it would avoid two dangerous railroad crossings, and enable all travelers on that road to come to or leave town by crossing the D. L. & W. tracks at a point where they could see both ways, and not have any noisy shops to pass.

The Fight For Prohibition,

IT TO BE MANAGED ON A THIRD-PARTY OR NON-PARTISAN BASIS, The following is a Harrisburg despatch

to the Press Who will manage the Prohibition campaign? Will it be the Third-party Problbitionists, or will it be the Woman's Christ an Temperance Union?

These are questions that are agitating the leaders of the Prohibition party and the officers of the Woman's Christian Temper-ance Union. Both organizations are now striving to get control of the campaign in order to direct its policy. That there will e a clash between the two seems almost nevitable. It is already intimated in certain quarters that the political Prohibition ists have no sincere desire to see the Constitutional amendment adopted by the people, because they are afraid their occu pation will be gone. The charge is not made that they will vote against it, bu that they will not vote at all.

If the amendment is defeated they pro

pose to at once charge the Republican party with bad faith and trickery, and to begin with renewed zeal their fight for a third party. Men and women whose fealty to the temperance cause is unquestioned take this view of the case, and for that reason want to keep the management of the cam

paign out of the hands of the third party caders. That the Women's Christian Temperance Union does not propose to follow the lead of the Probibition party is a settled fact. There may be a few local organizations that will send delegates to Chairman Stevens' Prohibition Convention, billed for February 5, but there is no probability of the State Union being represented.

THE TEMPERANCE CONVENTION. The Woman's Union and Constitutions Amendment Association, which is an auxil iary to the Woman's Union, will hold an omense convention at either Huntington or Lewistown within the next two weeks Every temperance organization in the Statis to be invited to send delegates, and it is proposed at this convention to appoint a imittee to conduct the campaign for the Prohibition amendment.

Mrs. Apple Wittenmyer, who was for five years president of the Woman's National Christian Temperance Union and who i now chairman of the Legislation Committee of the state Union, has been in Harrisbury this week looking after the Prohibitory amendment. THE PERSS corresponden called upon her to-day to obtain her views upon the plan of campaign the Woman's Pemperance Union will conduct and whether it will be co-operative with the

Prohibition party.

Mrs. Wittenmyer has had a large ex perience in temperance work and took a prominent part in the Pronibition contest in Iowa and Michigan.

"Are the Prohibitionists going to dominate the campaign for the Prohibitory have been making some improvements at the depot by adding a bay window and pondent.

"No," replied Mrs. Wittenmyer very emphatically, "they are not. The Constitutional Amendment Association and the Woman's Temperance Union have the movement well in hand. They have the confidence of the people and the support of the other temperance organizations, and in no case will they allow any political party to dominate the movement, not even the Republican party. They expect, however, to receive the support of the temperance nen of all parties."

"It is likely then that the Woman's temperance Union will send delegates to the Prohibition Convention?"

"I don't know. Perhaps some local societies will, but the Woman's Christian Cleaver appointed viewers of a road in Temperance Union and the Constitutional Main near D. H. & W. R. R. convention very shortly, and all temperance organizations will be invited to send repre sentatives. It is not likely, therefore, that any large number would attend the Harrisburg convention. Our convention will be so largely representative that all will come to it whose sympathies are with us in keeping the question free from politics."

THE WORK NON-PARTISAN. "Then the Woman's Temperance Union f this state has not endorsed the Prohibiion party?"
"No. It is non-partisan and for that

eason is stronger than the W. C. T. U. of ny other state. We have 20,000 active embers and in addition to this force we have the Constitutional Amendment Association, composed chiefly of gentlemen It ranks next in strength to the Woman's Union. John Fulton, superintendent of the Cambria Iron Company is its president, and an earnest temperanc worker he is, too. These two organizations will work together throughout the campaign in perfect harmony. Then we will also have the assistance of the Good Templars, who are turning all the enginery of their organization to ward helping us to carry the Prohibition mendment. We also count largely on the ssistance of the Roman Catholic Church. I have information that that church will render us valuable aid in the campaign."

"What particular policy will the Wom an's Christian Temperance Union pursue? "Our work will be more of an education al character. We expect to print and dis cribute hundreds of thousands of tracts. They will be placed in the hands of every voter in every county in the State. These tracts will be printed in English and German, and will treat of "The need of Probi bition," "The advantages of Constitutional Prohibition," "Prohibition Prohibits," Taxpayers, What Becomes of Your Mon-"Down with the Liquor Traffic," and

many other subjects.

OTHER PLANS OUTLINED. "We will supplement this work by securing from the official records of every coun ty the cost of crime and pauperism which vestments. \$213.867.56; amount on hand is directly traceable to the use of liquor. This will be the work of the local organizations of the various counties. We have al ready begun the work in Lancaster, Le high and Northampton Counties and thousands of tracts have been distributed there We also propose to have a circuit system similar to the Methodist itinerancy of the olden days. In other words, we propose to have an organization in every county

and have a number of speakers.
"Then we will start a round of Prohibition meetings, holding a meeting in every chool-house and church in each county. Many of the counties are now organized and ready to begin work. We will use every endeavor to influence men to vote against rum, and, by-aud-by, we expect to have every minister in the State preach a sermon in favor of Prohibition and take up collection to belp us along with our

work.
"We will probably establish our State head-quarters in Philadelphia and conduct our campaign from these. It is to be an open and fair fight on our part, and as the Califo nians say, 'we're going to do our level best to win.' On election day we will have our representatives, if possible, at every polling district in the State, and they will serve a lunch to the voters. This is an outline of how we propose to work. Of course, as the canvass goes on, we will

Something more convenient should e provided.

The only room which the county has pro vided for the official office of the judge of the courts, and the preservation of the large and valuable law library belonging to the bar and the county, has become and is a public passage way, as a rear entrance into the court room. The judge's table is filled with hats and coats, and the small space left on the four sides of it, will not over members of the bar.

A room for the judge and the library should be provided, and the present one used for a hat and cost room. Your committee has not undertaken to determine how these greatly needed chan ges should be made, or to formulate any

plane of construction, but submit it to the

utborities of the county for their consideration and action. JOHN G. FREEZE, ROBT. R. LITTLE, CHAS. C. EVANS, J. B. ROBISON. C. E. GRYER.
